Brewery tour U Fleků

The pearl of the brewery is its ancient brewhouse used for beer making for over 500 years. You can see copper vats from 1937, in which beer is still brewed today or a unique coolship. The contemporary look of the brewery is an outcome of a successful reconstruction in 1986. Come visit this outstandingly historic, but also a modern facility.

The tour of the brewery U Fleků takes approximately 45 minutes and is comprised of a beer tasting, a short video, an explanation of brewing processes and history of the brewery, and of course a visit in a cellar and a brewhouse. Each guest also gets a brewery souvenir.

Restaurant U Fleků

The restaurant U Fleků consists of eight halls and a garden. We offer seats for 1200 guests. The atmosphere of the historic house is highlighted by a stylish decoration and furniture of all restaurant halls.

Hluboká

Hluboká – due to its scale, character, original furnishings and extensive park - is one of the most significant Romantic monuments in the European and world context.

Restaurant Potrefená Husa

Potrefená Husa Anděl represents revitalized interior, which retained the characteristic elements of Potrefená Husa, such as the location of the bar opposite the entrance, elevated seating for the guests or usage of the screens in the interior of the restaurant.

A new feature is the two storey restaurant solutions, dividing it to the rest part dedicated for the consumption and busier part for guests' enjoyment.

There are also used the modern architectural elements and emphasis on the game of lights - the ceiling of the restaurant, where are placed the beer logos, is lit. This fifth Prague Potrefená Husa with its location is a great place for business lunches, after-work drink or celebrations with friends. You can find the offer of excellent meals which you can drink down with a wide range of Czech and Belgian beers.
